“BonBon” collection, *side tables*

Luca Nichetto was born in 1976 in Venice, where he studied at the Art Institute. Afterwards he attended the University Institute of Architecture of Venice where he earned a degree in Industrial Design. He began his professional career in 1999. In 2006 he founded his first Venetian studio, in 2011 he opened a second practice in Stockholm, Sweden. This is when he began to move beyond the object, reaching to interior design and architecture. Today Nichetto collaborates with a wide variety of leading Italian and international companies.

The family of side tables **BonBon** by Italian designer Luca Nichetto are inspired by the silver paper wrapped around the candies and their stylized form. Composed of simplified geometric shapes assembled in a totem, the model reminds of oversized candies that are suitable next or in front to a sofa or armchair.

The idea came out while thinking about decorative objects that could be eventually implemented with a simple function. Using a distinctive material like the silvered glass, we designed “**Vitroidi**”, a family of characters that seems to come from the space, with simple shapes yet strong personality. They can be used as ornamental centerpieces as well as flower vases, tea light holders or candle holders. And of course to keep company and make you feel happy.
